Webbing  
Webbing

## For all your applications

Our webbing is manufactured in various materials, thicknesses and widths and can be used in many applications. It is a versatile product not only for use on animals e.g. dog leads, harnesses for horses etc. in addition to the medical sector, automotive, sports, transport, furniture, marine, recreational, work and fashion industry.

For every industry, we can provide the right product.

Our webbing can also be supplied with various coatings, e.g. FR and water repellent. All our webbing comes with a 2% UV inhibitor.

# Your request— our challenge !!!

Butonia-Kahage Group.

We can supply our webbing in a polypropylene, polyamide, polyester and cotton quality in various standard colours. Dyed to match colours are possible.

Please contact us for more information. Our sales team is ready to answer all your questions.
