**Collection: Spring/Summer 2020.**

After an intensive and creative period of hard work our design team once again have succeeded to deliver a terrific collection for Spring / Summer 2020! Our designers have not only chosen plastic, metal and natural materials, but also sustainable materials, which has added to the collection. All the materials, combined with the most exclusive styles, are based on the themes within the trends of Spring/Summer 2020.

Our collection includes "recycled" material which consists of some new and innovative ecological designs.

All our products from both collections can have your company logo either engraved or lasered.

Our collection is now complete and ready to show you. Our salesmen are happy to visit you, however, you are also welcome to visit our showroom.

Please contact us so we can make an appointment with you.
